

Tim Walker
Senior Product Manager
AJA Video Systems

Tim Walker is a Senior Product Manager at AJA Video Systems in Grass Valley, CA. He is currently focused on HDR conversion, color management, and video processing technologies used across professional video applications. He is active within SMPTE, recently serving as Chair and Manager. Tim has previously held Senior Product Management roles for production switchers at Grass Valley and for enterprise routers at Miranda Technologies and NVISION Inc. During his tenure, he has presented papers and spoken at numerous industry events around the world, including the HPA Tech Retreat, SVG Summit, and SMPTE Technical Conferences. Tim graduated from California State University, Chico, with a degree in Mechatronic Engineering. While attending CSUC, Tim received numerous academic awards and studied abroad at technical universities in Germany.
